MEMORANDUM

From: Commanding Officer, U.S. Naval Air Station, Keflavik  
To: Project File

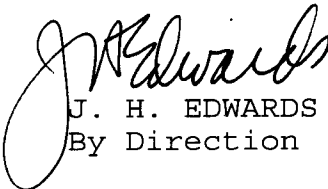

Subj: RECORD OF NEGATIVE DECISION FOR PROPOSED TURNOVER OF 46  
FACILITIES LOCATED AT THE H-1 SITE, ROCKVILLE TO THE  
GOVERNMENT OF ICELAND

Ref: (a) Final Governing Standards for Environmental Protection  
by United States Forces in Iceland of April 1994  
(b) OPNAVINST 5090.1 (Series)

1. This statement documents the environmental analysis requirement for the subject turnover as required by references (a) and (b). It has been determined that this turnover will not significantly affect the environment, a Record of Negative Decision is appropriate, and an Environmental Review or Study is not required.

2. Proposed Action: This action will turn over 46 facilities within the Mid-Atlantic Region. These facilities are excess to the requirements of the using activity and are beyond economical repair. Turnover of these facilities will result in operations and maintenance savings. The facilities are vacant and do not serve the mission of NAS Keflavik Iceland. The turnover of these facilities shall be done in compliance with the requirements of reference (a). These facilities are neither on nor eligible for listing on the National Register of Historic Places and this action has been found not to have a significant effect on the human environment.

3. This Record of Negative Decision was prepared by Mr. B. Mustard, Planning Director, Code 604, Public Works Department, NAS Keflavik, Iceland after consultation with the Public Work's Environmental Division. He can be reached at commercial telephone 011-354-425-2217/2295 or DSN 450-2217/2295.

DOD Activities Overseas  
(c) SECDEF WASHINGTON DC 142159Z Dec 93

Encl: (1) Environmental Condition Report for Rockville  
Agreed Area Site

1. As requested in reference (a), we reviewed enclosure (1)  
for Known Imminent and Substantial Endangerment (KISE) to  
human health and safety at the Rockville Agreed Area Site.  
The review indicated there is no KISE per reference (b).

2. Prior to transfer of the property, we recommend a full  
disclosure of existing environmental conditions presented in  
enclosure (1). Additionally, per reference (c), once a site  
is designated for return, funds will not be spent for  
maintenance, repair, or environmental restoration beyond the  
minimum necessary to sustain current operations. At this  
time, DOD has no ongoing operations.

Site  
(c) DoDI 4715.8 Environmental Remediation for DoD Activities  
Overseas

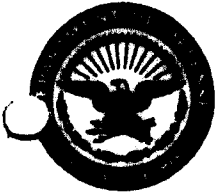

1. As requested in reference (a), the U.S. Naval Hospital Keflavik has reviewed reference (b). The review has indicated that there is no known imminent substantial endangerment to human health and safety in accordance with reference (c).

2. The review of the reference (b) has indicated that several facilities contain lead based paint and asbestos containing materials. It is recommended that full disclosure of this information be made to ensure proper facility management and use for the protection of human health and safety.

3. My point of contact is LT Raymond Stiff, Head of Industrial Hygiene and Occupational Health. He may be contacted via telephone at 011-354-425-3252 or DSN 450-3252 if you should have any questions or concerns.

Area Site

1. In accordance with reference (a), request your review of enclosure (1), which documents the historical use of and current environmental conditions at the Rockville Agreed Area Site.

2. As the Department of Defense (DoD) Environmental Executive Agent for Iceland, your review is necessary before the land may be returned to the Government of Iceland. Of particular interest is any known imminent and substantial endangerment to human health and safety due to environmental contamination that was caused by DoD operations at this site.

3. Point of contact is ENS Michael Meno, Jr., NASKEF Public Works Environmental Division Officer. He may be contacted via telephone at 011-354-425-6404 or DSN 450-6404, or by email at 60e@naskef.navy.mil.
